

Assignment 6 (Guarding) self-report

TEAM:

1. Is your code fully working? Partially working? not working at all?

2. Please describe when your code is working/crashing .

3. How many hours approximately did you put into this assignment, and when did you start (when it was posted; midway from when it was posted to when it was due; a day or two before it was due)?

4. What challenges did you have with this lab? Do you have any suggestions on how to improve the assignment to avoid these issues?

4. Did you talk to any of the TAs re this assignment? Please specify TA names and how many times (approximately).

5. Please rate the difficulty of this lab, from 1 to 10, with 10 being hardest.

6. Comment on whether this lab was a worthwhile experience, and how does it align with your goals for this class.
